C&T Calendar							Newton						
Sun	Mon	Tue	Wed	Thu	Fri	Sat	Sun	Mon	Tue	Wed	Thu	Fri	Sat

Newton Years, are *these* years:
 2003, 2009, 2015, 2020, 2026, 2032, 2037, 2043, 2048, 2054, 2060, 2065, 2071, 2076, 2082,
 2088, 2093, 2099, 2105, 2111, 2116, 2122, 2128, 2133, 2139, 2144, 2150, 2156, 2161, 2167 ...

Did you get it? This calendar appears *strange*, simply because there is *no year* mentioned!

That is *because* the CCC&T Calendar is valid for *every* year.

It *never* changes (*except* that every five or six years there is a Newton Mini-Month. “Newton Week” follows June, and precedes July).
